

Shad Thames Area Management Partnership
www.loveshadthames.org

Overview

Vision

A ground-breaking stakeholder collaboration which creates the framework for managing and developing the iconic Shad Thames conservation area.

Mission

To protect, celebrate and animate the Shad Thames conservation area, making it a great place to live, work and visit.

Principles

Everything that STAMP does will reflect the following general principles.

- Constructive and collaborative
- Proactive
- Impact and results orientated
- Focus on both immediate and longer-term outcomes
- Inclusive and participatory
- Independent
- Accountable and transparent
- Flexible and responsive
- Creative in finding and using resources

Themes

The following two overarching aims will inform every action that STAMP takes.

Users

- To reflect the interests of all users.
- To ensure no single use or user dominates.
- To build links within and between all user groups, and with Southwark Council.

Users include residents (long and short term, owners and renters); people who work in the area; visitors; businesses; and cultural organisations and spaces.

Historic character

- To protect, enhance and celebrate the area's historic character and appearance.

This includes dealing with current and future developments, as well as undoing negative impacts which have arisen over time.
